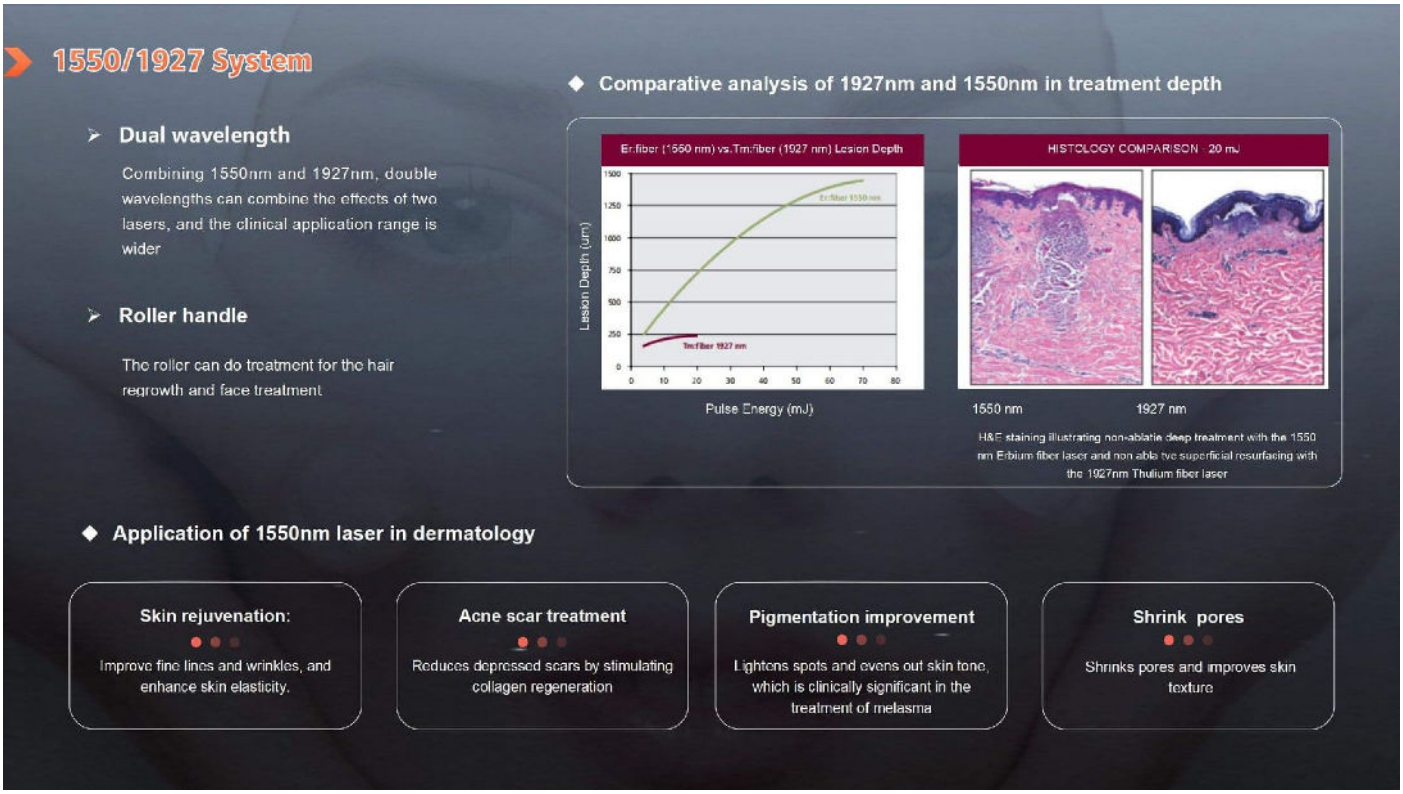
•**Thulium 1927nm + Er:Glass 1550nm**



What is LumiGlam Pro?

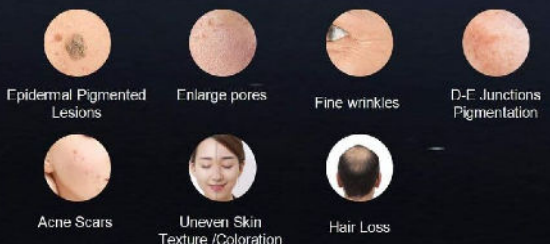
- Address both deep and superficial resurfacing: special system to feature dual fiber laser technology
- Improved scanner design increases procedure speed by 25%.
- continuous motion tracking system delivers safe uniform treatment with consistent results.
- Intelligent touchscreen interface and precise dosimetry allows physician to easily select the optimal treatment settings.
- Treatment versatility: Treatment of a variety of conditions on all skin types anywhere on the body

Principle of LumiGlam Pro Treatment

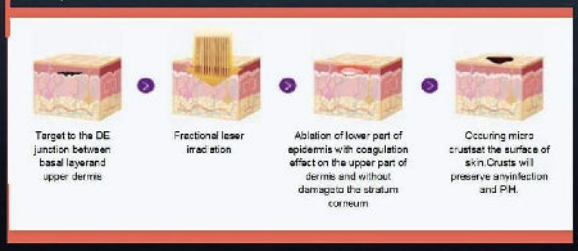
Er:Glass vs Thulium vs CO2

non-ablative Er:Glass 1550 nm	non-ablative+ sub-ablative Thulium 1927 nm	ablative Co2 10600 nm
-Thermal effect to dermis -Inducing protein denaturalization - Mainly for skin rejuvenation -Less downtime	- Target to the DE junction between epidermis and dermis - Coagulation and denaturalization - Mainly for whitening skin - Less downtime	-Skin resurfacing and rejuvenation -Longer downtime than non-ablative

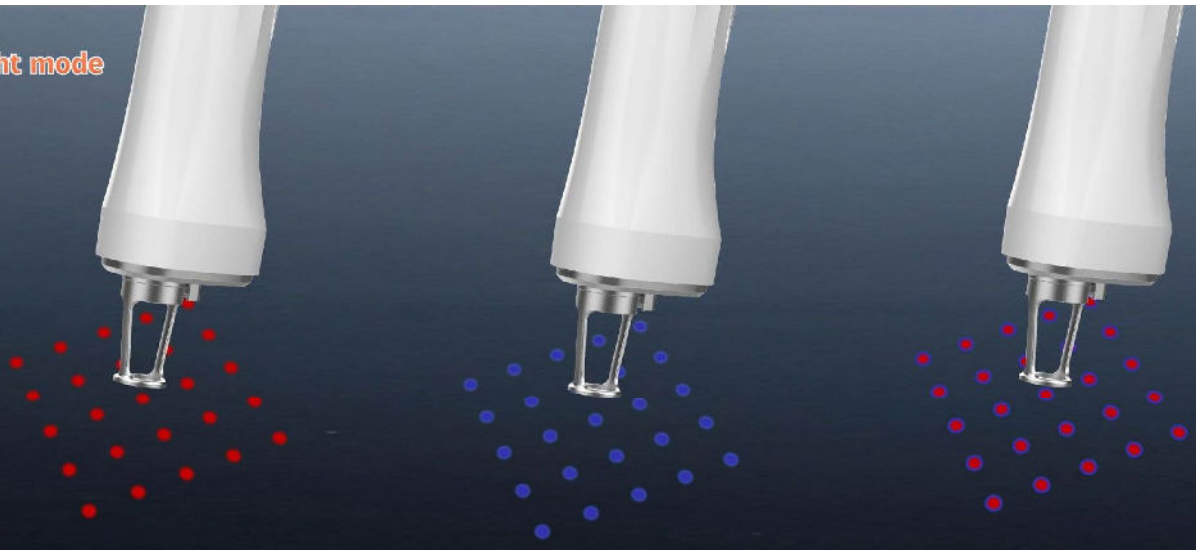
Indications of LumiGlam Treatment



Therapeutic mechanism



Light mode



1927 light alone

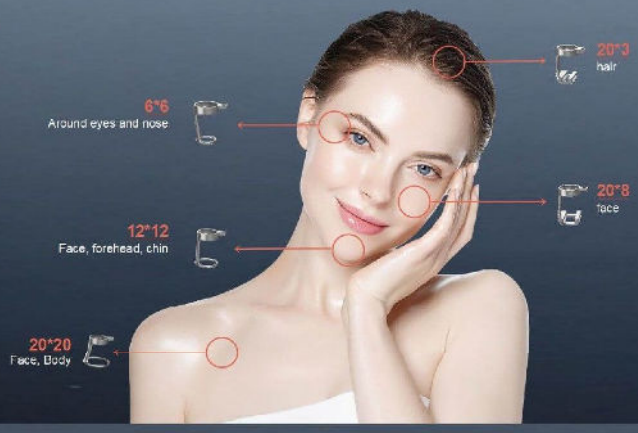
1550 light alone

1927+1550 mixed light

1927+1550 mixed light, first 1927 to open the skin channel, then 1550 to stimulate collagen regeneration

The mixed light method is to point out 1927 and then 1550, then the next point

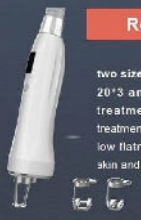
Handle and function



Fractional Handle

The fractional handle has 3 replaceable treatment heads, with sizes of 6*6, 12*12 and 20*20, which are convenient for fine treatment of large, medium and small areas.

Roller Handle



two sizes of replaceable treatment heads, 20*3 and 20*8, suitable for hair growth treatment, can also be used for facial treatment, suitable for treatment of areas with low flatness, the roller helps to stretch the skin and enhance the workability

Gynecological Head

- Reshaping of the vulva
- Postpartum perineal scars
- Hypertrophy of the labia majora andclitoris Genital bleaching
- Stress urinary incontinence
- Vaginal rejuvenation
- Vaginal atrophy
- Vaginal relaxation syndrome

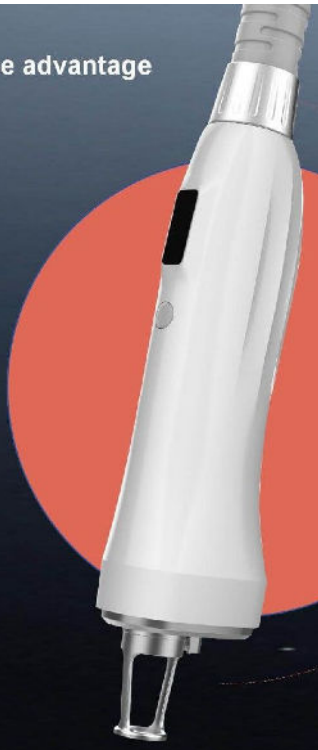
Interface

LumiGlam Pro rebuilds glowing, healthy and elastic skin through gentle, nonablative fractionated treatments with minimal cost of ownership and no shot limit per procedure.

Easy-to-navigate display provides valuable feedback with selectable dot space, Total Energy delivered per treatment session, Density and Interval options.

Fastest resurfacing treatment solution with bigger beam diameter and scan size (20 x 20 mm & 12x12mm).
Tunable treatment, from mild to aggressive, provides customized outcomes.

Appearance advantage



Intelligent identification

The handle is equipped with 5 identifiable treatment heads, which can match the treatment parameters and treat different treatment areas of large, medium and small sizes.

Fractional handle

Roller handle

Machine parameters

Laser	LUMIGLAM PRO
Wavelength	1927NM+1550NM
Output(W)	15W
Pulse duration (ms)	0.1-10ms
Handle Piece	Fractional handle (Spot size: 6*6,12*12,20*20) Roller handle (Spot size: 20*3,20*8) Vaginal handle(optional)
Screen size (inch)	13.3" Android
Voltage	110V/220V
Machin Size (mm)	500*400*1000mm
Net Weight (kg)	35kg
Package size (mm)	750*550*1090mm
Gross weight (kg)	90kg
Total Watt	600W
